

Want less mail?

Then get more here...www.prudential.com/online/retirement

Sifting through your mail can be a tedious procedure. After throwing out all of the junk mail and picking out important bills and statements, you're usually left with half of the mail you started with. Eliminate some of the hassle...choose to receive electronic delivery of your account statement at no extra charge!

An e-statement is:

- **Fast**—It's the quickest way to receive your statement because you don't have to wait for it to be printed and delivered to your home. It's automatically delivered to your e-mail account for online viewing.
- **Safe**—The electronic information delivered to your inbox is protected by the same security features that guard your online account information.
- **Convenience**—since all of your statements are online, you don't have to worry about filing them at home. That's automatic organization without the paper clutter.

If you elect e-statements, within 5 business days after the end of the calendar quarter, you will receive an e-mail notifying you that your e-statement is ready to be viewed. While viewing, you can choose to print the statement, or just file it with your other important documents.

Signing up for e-statements is simple—Just visit www.prudential.com/online/retirement, select "E-documents" under *Other Links* and change your delivery preferences for statements and confirmations.
