

BARROW

Brain and spine services

HONORHEALTH®

Coverage through the HonorHealth medical plans for spine treatments

Barrow brain and spine services coverage

Effective July 1, 2022, Barrow Brain and Spine providers at HonorHealth facilities are considered covered in-network under the Tier 1 benefit on HonorHealth's medical plans. Not all doctors at these facilities are in-network, so it is important to determine if the doctor is in- or out-of-network before receiving care. For instructions on this process, please see below. **Please note, the process below only applies for spine-related treatments. For brain-related services, no referral requirement is needed for services with the Barrow-approved providers listed below.**

Barrow brain and spine Instructions for HonorHealth medical plan members

1. HonorHealth pain providers (listed below) refer a patient to a Barrow Brain and Spine approved provider (see list at the bottom of the page to double check it's an approved provider):

- **Employed with HonorHealth:**

- | | |
|--|------------------------------------|
| » Dr. Deogun | » Dr. Hennenhoefer |
| » Danielle Mackelprang, Nurse Practitioner | » Antika Myers, Nurse Practitioner |
| » Dr. Kumaraswamy | » Dr. Sultani |
| » Dr. Torres | » Dr. Kumarswamy |

- **Pain Consultants of Arizona (under an agreement with HonorHealth):**

- » Dr. Grove
- » Dr. Bui
- » Dr. Kubitz

2. A Barrow Brain and Spine approved provider (see below) contacts UMR to initiate the pre-certification process.

3. UMR then reviews for medical necessity and ensures referral has been obtained from proper referral source.

- If this is not completed, the claim will be denied.

4. Services are rendered with a Barrow Brain and Spine approved provider (see below) at HonorHealth facilities.

5. Barrows submits the claim through UMR.

6. Claim is billed at Primary Network level based on agreements with approved facility and provider.

- Please see the Plan Document for Primary Network benefits around provider and facility fees.

7. Benefit is applied based on Primary Network indicator and approved pre-cert on file.

8. Explanation of Benefits (EOBs) are issued along with appropriate payment.

- Barrow received EOB and payment.
- Patient received EOB.

Barrow brain and spine approved providers with National Provider Identifier (NPI)
